## Private Label Oral Acetyl-Glutathione or Topical Palmitated Glutathione for Your Practice!

Glutathione by itself is not bioavailable when taken orally and not appreciably absorbed in human or animal models. In order to have sufficient bioavailability in an oral product, an acetyl group is added on the glutathione molecule.

Acetylation is the way all proteins, amino acids and peptides are transported in the body. Acetyl-glutathione is a food substance recognized as a Dietary Supplement and is generally regarded as safe, when used as directed.

Acetyl-Glutathione Capsules

12-24 bottle minimum

100mg 60 ct - \$39.00 Wholesale

300mg 60 ct - \$68.00 Wholesale

Topical Glutathione Palmitate

12 tube minimum

60gm tube - \$55.00

Wholesale
